

iquant recharge

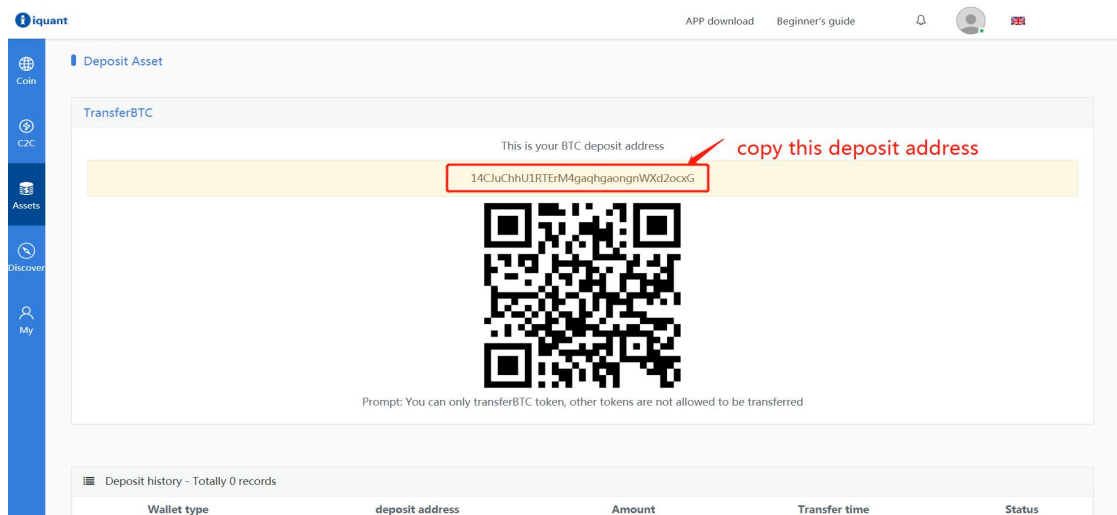

1、 Click on the left main menu of the homepage [assets]

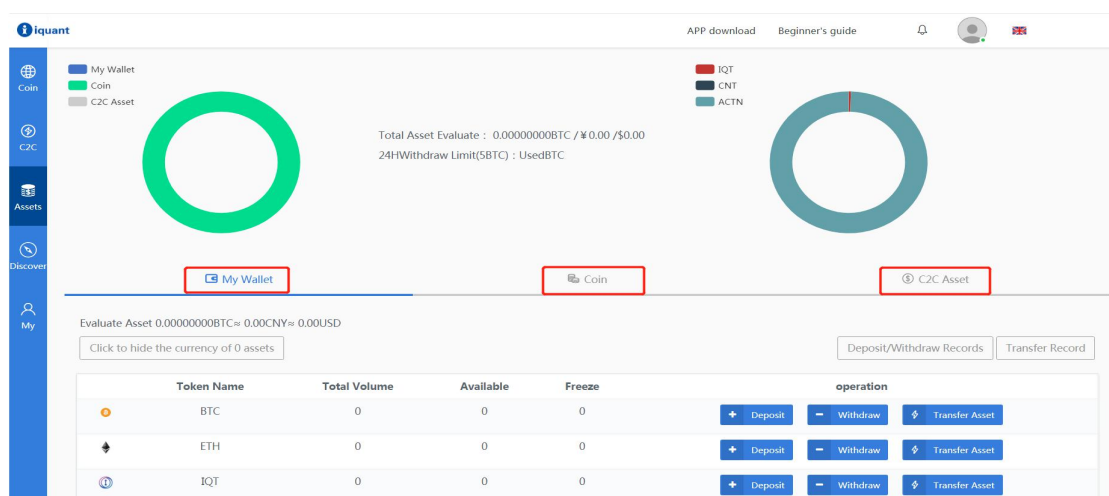

2、 Enter the [asset] interface, divided into [My wallet]、 [Coin]、 [C2C Asset], corresponding to the deposit/withdraw asset, coin market assets and C2C asset (assets can be converted to each other). If the asset is in [My wallet] and you need to do coin trading, you need to transfer [My wallet] to [Coin].

3、 Click deposit, copy the wallet address to the transfer out wallet, determine the quantity, and recharge (warm reminder: you must match the address and coin one by one, if the address is wrong, the coin will be permanently lost).

4、 Click withdraw, copy other wallet addresses, add to the wallet address or transfer to the saved wallet address, determine the number of coins, enter the fund password, and confirm to withdraw (warm reminder: you must match the address and coin one by one, if the address is wrong, the coin will be permanently lost).

5、 After confirmation, you can follow up the arrival situation.
