

【CNT How to buy RMB?】

What is CNT?

In order to provide better service to Chinese users, iquant adopted CNT as money unit. 1 CNT is equal to 1 RMB.

1 CNT is always equal to 1 RMB. When the price of digital currency is dropping, you can change your coins into CNT to avoid lost. CNT can only be used on iquant but can not be withdrawn.

Users can buy CNT using RMB in a third party trading pool in C2C trading area to make further token-token trading. Similarly, you can sell your CNT to get RMB in a third party trading pool in C2C trading area.

Buy CNT:

1、Click “C2C” ----select CNTtrading coins

2、Click “ buy” ——insert the amount (Notice: amount must be more than 400) ——cluck confirm

3、If you don't make safety settings before, you need to make it in the bouncing page. The first is Manet password settings, click set money password.

4、Click set money password and go to my page, click setting button and fill information to complete settings.

5、You can only start to make C2C trade after finishing payment settings and user authentication.

Payment setting page

User authentication page

6、Do the second step again after finishing all settings. Fill in the amount. Click confirm.

7、Generate incomplete order after clicking confirm. Then make payment according to the method provided by the other party. Click confirm payment after sending the payment..

7、Check the order information and then click I have paid. Then you can wait for the coins coming to your wallet. There will be text message, email and system message to inform you.

Page after receiving the coins

The screenshot shows the iQuant trading platform interface. At the top, it displays the current price of BTC as 42901.78 CNY. Below this, there are two main sections for order execution: '全部买单' (All Buy Orders) and '全部卖单' (All Sell Orders). The '全部买单' section contains a table with columns for '卖家' (Seller), '付款方式' (Payment Method), '价格' (Price), '单笔交易限额' (Single Transaction Limit), '数量' (Quantity), and '操作' (Action). One order is highlighted with a red box, showing an order number of 152946556758750234, type '买入' (Buy), status '已完成' (Completed), and a quantity of 500 CNT for a price of 500 CNY. The '全部卖单' section also shows a table with similar columns, listing various sell orders.

8、 You can see that CNT is already in your wallet. Then you can send CNT to your coin wallet to make trade.

The screenshot shows the iQuant wallet interface. At the top, there is a large green circle representing the total asset value. Below it, a table lists assets with columns for '币种名称' (Coin Name), '总量' (Total), '可用' (Available), and '冻结' (Frozen). The table shows BTC and CNT. A red arrow points to the '可用' (Available) column for CNT, which shows a value of 500. A red text box on the right says '到此就可以把CNT转移到币市资产账户中进行币市交易了' (At this point, you can transfer CNT to the coin market asset account for trading).

Notice:

1. Minimum amount for order is 400 CNT;
2. Currently, you can pay by Wechat, alipay and bank card. After the seller confirm that he receives your payment, he will release the CNT.
3. There is no commission in buying CNT.
